One of the most importance decisions that you will make about your sixth form experience happens before you even start; choosing the right courses. This decision will affect the options that are available to you when you are 18 so it is important that you spend some time thinking about what you want to do next and select courses that will set you on the right track to achieve this.

We offer a wide range of courses at Sherburn Sixth Form and were proud that Ofsted acknowledged that “*all aspects of the 16 to19 study programme are well planned*”. We have four tiers of qualification available for you, and it is possible to mix and match between them to arrive at a bespoke package that will put you on the pathway to your chosen career.

How to make your choices

We understand that making decisions about your next steps is a really daunting experience for many young people, especially those who are unsure about what they want to do in the future. The post-16 team are here to advise you and provide support in making the decision that is right for you. Before you finalise your application make an appointment with Mr Ralphs or Miss Oates to discuss your choices and how this will support you in taking your next steps.
