## Maths

## Key Stage 2 Curriculum includes

Number: Negative numbers, rounding, fractions, percentages, multiples, factors and primes, basic ratio, conversions
Algebra: Use simple formula, generate a linear number sequence, simple equations
Shape: Area of triangles, rectangles and parallelograms, volume of cubes and cuboids, 2d and 3d shapes, name parts of circles, angles (triangle, on a straight line, around a point, vertically opposite).
Date : Averages from a list, bar charts, line graphs, pie charts, plotting coordinates

|  | Year 7 | Year 8 | Year 9 | Year 10 | Year 11 | Year 12 | Year 13 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Autumn $1$ | Key skills <br> - Arithmetic <br> - Fractions <br> - Negatives <br> - Decimals <br> Manipulating Algebra and solving equations <br> - Understand what 'algebraic expression' means <br> - Substitution into a one or two step worded formula <br> - Write simple algebraic expressions <br> - Simplify expressions including with powers <br> - Expand single brackets <br> - Identify which | Inequalities and review of Equations <br> - Equations review <br> - Forming and solving equations including with angles and ratios <br> - Use inequality symbols <br> - Inequalities on a number line Solve inequalities | Manipulating Algebra <br> - Revise previous learning <br> - Substitution including positives and negatives <br> - Substitution into algebraic formula and worded formulas <br> - Expand brackets and simplify <br> Arithmetic Ratio and proportion <br> - Revise previous learning <br> - Best buy <br> - Convert between ratios and fractions <br> - Share into a ratio given the | Manipulating Algebra <br> - Revise previous year <br> - Expand double brackets <br> - Problem solving with algebra and shape <br> - Simple factorising <br> - Write algebraic expressions including brackets and powers <br> Arithmetic Ratio and proportion <br> - Revise last year <br> - Direct and inverse proportion <br> - Problems with ratio <br> - Problems with ratio fractions | Bespoke package of learning revisiting areas of weakness highlighted through question level analysis from PrePublic Examinations | Algebraic manipulation, surds and indices, quadratic equations and simultaneous equations <br> Graphs, linear and quadratic inequalities <br> Straight lines and circles <br> Differentiation | Trigonometry and circular measure <br> Further <br> Sequences and series <br> Further differentiation <br> Numerical methods |

|  | operation is needed in worded problems <br> - Use inverse to solve problems <br> - Number Machines <br> - Use inverse to undo two step worded scenarios <br> - 1 and two step equations with one bracket |  | total or one share or part of a share | and percentages <br> - Multiply and divide decimals <br> - Exchange rates |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Autumn $2$ | Manipulating Algebra and equations continued Equations Number Properties | Fractions, Decimals and Percentages <br> - Shade <br> fractions of a <br> shape <br> - Equivalent fractions <br> - Cancel fractions <br> - Add and subtract fractions by drawing <br> - Simple fractions of amounts <br> - Convert mixed numbers to improper fractions <br> - Multiply | Area, Perimeter Volume <br> - Revise previous learning <br> - Compound areas made from rectangles, triangles, parallelograms <br> - Draw nets of 3d shapes <br> - Surface area of cubes and cuboids <br> - Convert between metric units <br> - Know parts of circles <br> - Volume of | Area, Perimeter Volume <br> - Revise last year <br> - Area of trapeziums <br> - Problem solving with area <br> - Problem solving (e.g. Tiling an area) <br> - Form and solve equations with shape |  | Further Differentiation <br> Integration <br> Trigonometry <br> Binomial <br> Expansion <br> Introduction to trigonometry | Further <br> Integration <br> Partial <br> Fractions <br> Numerical methods <br> Parametric equations <br> Functions and Transformation <br> s |

|  |  | fractions by an integer <br> - Percentage of an amount <br> - Add and subtract fractions where one denominator needs changing <br> - Fractions of amounts including using a calculator <br> - Convert fractions decimals and percentages <br> - Percentage of an amount and problem solving | prisms <br> Averages, Charts and Graphs <br> - Revise previous learning <br> - Draw a tally chart by grouping data. <br> - Speed Distance time Graphs <br> - Compare data using average and range <br> - Stem and leaf diagrams <br> - Draw and interpret Pie chart | Averages, Charts and Graphs <br> - Revise last year <br> - Stem and Leaf diagrams with decimals and 3-digit numbers <br> - Scatter graphs <br> - Frequency diagrams and polygons <br> - Discreet and continuous data |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Spring 1 | Averages, Charts and Graphs <br> - Construct a frequency table and draw appropriate chart from this <br> - Draw and interpret bar charts <br> - Draw and interpret pictograms <br> - Find the mean, | Area, Perimeter Volume <br> - Identify properties of 2d and 3d shapes <br> - Perimeters and area by counting <br> - Know standard units of measure squares <br> - Perimeters | Equations <br> - Revise previous learning <br> - Equations where the unknown appears twice <br> - Solving inequalities <br> - Form and solve equations and inequalities including where the unknown | Equations <br> - Revise last year <br> - Equations with fractions <br> - 2 sided inequalities <br> - Form and solve equations involving geometry <br> - Rearrange simple formula <br> - Solve equations with |  | Exponentials and Logs <br> Further <br> Trigonometry <br> Proof <br> Sampling <br> Data representation and interpreting | Differential equations <br> Binomial <br> Theorem <br> Kinematics in two dimensions <br> Further probability |

|  | median, mode and range from a list of data <br> - Time series graphs <br> Draw pie charts | with missing sides <br> - Area's rectangles, triangles, parallelogram, including problem solving <br> - Volume of cubes and cuboids | appears on both sides <br> Fractions, Decimals and Percentages <br> - Revise previous learning <br> - Increase and decrease be a fraction or a percentage <br> - Add and subtract fractions <br> - Multiply fractions | $y^{2} \text { (e.g., } 3 y^{2}=$ <br> 27) <br> Fractions, Decimals and Percentages <br> - Revise last year <br> - Order fractions decimals and percentages <br> - Problem solving with fractions decimals and percentages <br> - Add, subtract, multiply and divide fractions with mixed numbers <br> - Manipulative reasoning <br> - Use a decimal multiplier |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Spring 2 | Arithmetic Ratio and proportion <br> - Multiply by 10 , 100 and 1000 <br> - Add and subtract decimals <br> - Multiply and divide a decimal by an integer <br> - Solve problems | Number Properties <br> - Write and read numbers up to millions <br> - Use inequality symbols <br> - Round to the nearest 10, 100, 1000 <br> - Round to the nearest integer <br> - Order decimals | Probability <br> - Revise previous learning <br> - Calculate the probability of an event not happening <br> - Listing outcomes <br> - Two-way tables and finding probabilities | Probability <br> - Revise last year <br> - Frequency trees <br> - Expectation <br> - Venn diagrams <br> - Basic tree diagrams |  | Probability <br> Binomial distribution <br> Vectors <br> Kinematics in one dimension <br> Forces and | Statistical distributions (normal) <br> Statistical hypothesis testing (normal) <br> Equilibrium and resolving |

|  | using the unitary method <br> - Simplify ratios <br> - Share into a ratio <br> - Convert ratios to fractions | - BIDMAS <br> - Order fractions by changing to a decimal <br> - Round to up to 4 decimal places <br> - Problem solving with Factors, multiples, primes, squares, cubes and roots <br> - BIDMAS <br> - Power and root natation including on a calculator <br> - LCM, HCF | from them <br> - Sample space diagrams <br> Angles <br> - Revise Previous learning <br> - Problem solving with angle facts <br> - Properties of quadrilaterals | Angles <br> - Revise previous year <br> - Complex problems with angle sums <br> - Measure and draw bearings <br> - Form and solve equations with angles <br> - Bearings <br> - Parallel lines (alternate angles, allied, corresponding | Newtons Laws | Statics and dynamics <br> Moments <br> 3D Vectors |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Summer $1$ | Angles <br> - Angle on a straight line facts <br> - Name angles <br> - Draw and measure angles <br> - Types of triangles <br> - Angle facts and problem solving <br> - Types of | Sequences and Graphs <br> - Recognise odd and even number <br> - Draw the next pattern in a sequence <br> - Find missing numbers in an arithmetic sequence <br> - Determine whether a | Number Properties <br> - Revise previous learning <br> - Round to one significant figure <br> - Estimating <br> - Use Venn diagrams to sort numbers <br> - Prime factorisation <br> - Worded LCM, | Number Properties <br> - Revise last year <br> - Problem solving with estimates <br> - Venn diagrams and set notation <br> - Standard form <br> - Basic rules of indices | Statistical hypothesis testing <br> Analysis of data using statistical packages <br> Forces and Newton's laws <br> Revision | Revision |

|  | triangles and problem solving <br> - Parallel and perpendicular sides <br> - Angles in a quadrilateral | term will appear in a sequence <br> - Simple nth term rule <br> - Draw and label axis <br> - Plot coordinates in all 4 quadrants <br> - Find the midpoint between two coordinates <br> - Draw horizontal and vertical lines ( $\mathrm{x}=, \mathrm{y}=$ ) <br> - Draw simple linear graphs | HCF problems <br> Sequences and Graphs <br> - Revise previous learning <br> - Find the nth term of a sequence <br> - Draw diagonal lines ( $\mathrm{y}=\mathrm{x}, \mathrm{y}=-\mathrm{x}$ ) <br> - Draw basic linear graphs from a table of values | Sequences and Graphs <br> - Revise last year <br> - Fibonacci sequences <br> - Find a given term using the nth term rule <br> - Determine whether a number will appear in a sequence given the nth term rule. <br> - Draw linear graphs from a table of values not in the form $y=m x+c$ <br> - Find the midpoint of a line segment <br> - Draw nonlinear graphs by finding a table of values |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $\begin{aligned} & \text { Summer } \\ & 2 \end{aligned}$ | Probability <br> - Draw and allocate events to a probability scale in words or numbers <br> - Probability in words <br> - Theoretical | Transformations <br> - Lines of symmetry <br> - Rotational symmetry <br> - Reflect in the y axis and x axis <br> - Reflect in a given diagonal | Transformations <br> - Revise previous learning <br> - Rotate a shape from a given point <br> - Plans and elevations <br> - Reflect in | Transformations <br> - Revise last year <br> - Reflect in the lines $y=, x=$ $y=x$ and $y=-x$ <br> - Enlarge by a positive scale factor from a coordinate |  | Revision <br> Mocks <br> Start year 13 <br> Trigonometry (circular measures) |  |

|  | probabilities <br> - Theoretical probabilities, problem solving <br> - Simple two-way tables | line <br> - Rotate shapes <br> - Tessellate a shape <br> - Enlarge by a positive scale factor <br> - Worded translation <br> - Draw a circle | horizontal and vertical lines |  | Translate a shape by a vector Rotate a shape from a coordinate Identify congruent and similar shapes Describe transformations Vector arithmetic |  | Trigonometry (identities) <br> Sequences and Series |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
