

# Wellbeing

## What is good mental health?

Looking after your mental health is not something we should just do if we are struggling, or feeling low, anxious or stressed. It's actually something we should think about all the time and really invest in, just like with our physical health.

Staying on top of our mental wellbeing is good for us now but also helps us manage difficult times in the future. Over time, it can also reduce our risk of physical health problems.

There are lots of things we can do to look after our mental health and wellbeing every day – make a start with the [5 Ways to Wellbeing](#).
